

THE FAMILY: A PRIMARY GROUP

Part 1: Definitions

Define the following terms:

1. Single-parent family _____
2. Arranged marriage _____
3. Romantic love _____
4. Dual-career roles _____
5. Spousal abuse _____

Part 2: Timeline

Complete the following timeline of the changing family structure according to the text. For the last row, the future, provide your predictions.

Time Period	Type of Society	Type of Family	Gender Roles
over 5000 years ago	hunting and gathering society		
3000 BCE to CE 1800	Agricultural Society		men farmed, women worked at home
1800 to 1950	Industrial		
1950 to present	Post-Industrial		
the future			

Part 3: Short Answer

Complete the following on a separate piece of paper.

1. Explain the difference between the extended family and the blended family.
2. List two benefits for each of the following: arranged marriage and free-choice marriage.
3. Define and explain the term *battered woman syndrome*.

Part 4: Diagram

On a separate piece of paper, draw a linear flow chart (a chart that contains boxes of information connected together by lines). In this chart, list the seven steps in the family cycle. Once you have completed the chart, think about the alternatives to some steps, such as common-law family, divorce or childless by choice. Draw a new box that displays an alternative, and connect it to the chart at the appropriate step in the cycle. How would the rest of the cycle continue in this alternative family structure? Complete the new flow chart for the chosen alternative. The final diagram will consist of two parallel flow charts.
